

US EPA ARCHIVE DOCUMENT

AGENCY: ENVIRONMENTAL PROTECTION AGENCY (EPA)

TITLE: "NON-CONSTRUCTION MARKET-BASED APPROACHES TO REDUCING GREENHOUSE GAS EMISSIONS THROUGH ENERGY EFFICIENCY IN HOMES AND BUILDINGS"

ACTION: Amendment 2

RFP NUMBER: EPA-OAR-CPPD-10-12

CFDA: 66.034

DATE: October 19, 2010

SUMMARY: This notice announces the reissuance of EPA Strategic Plan 2006-2011 in the above referenced RFP on pages 4 and 8.

As a result of EPA currently operating under a Continuing Resolution (CR) and until the Agency gets its full-year appropriation for FY 2011, EPA will reference the 2006-2011 Strategic Plan in all funding announcements.

Accordingly,

On page 4, Section I. Part C.1 shall now read as follows:

Linkage to EPA Strategic Plan

All proposals must support the EPA Strategic Plan's Goal 1 'Clean Air and Global Climate Change'; Objective 1.5 'Reduce Greenhouse Gas Emissions' of EPA's 2006-2011 Strategic Plan, which states, "By 2012, 160 Million Metric Tons of Carbon Equivalent (MMTCE) of Emissions Will Be Reduced Through EPA's Voluntary Climate Protection Programs." Specifically, this project supports EPA efforts in fostering voluntary energy efficiency improvements with the goal of reducing carbon dioxide emissions.

This solicitation specifically ties into this statutory authority by supporting market-based approaches to energy efficiency program design and delivery at the national, regional, state, and local levels. These approaches are meant to build capacity, develop market infrastructure, and serve as replicable models for long-term change, reducing GHG emissions, and helping to prevent and control air pollution.

On page 8, Section III. Part C.2 shall now read as follows:

Proposals must support EPA Strategic Plan Goal 1 'Clean Air and Global Climate Change'. *(See Section I)*
